Forex Trading ?

Forex trading, or foreign exchange trading, is the process of buying and selling currencies on the global market. Traders aim to profit from fluctuations in exchange rates between currency pairs, such as EUR/USD. It's the largest and most liquid financial market in the world, operating 24 hours a day, five days a week.

Forex trading boosts your business by enabling efficient international transactions, reducing currency risks, and providing opportunities to profit from global market movements.
